Each, 15c.; per doz., $1.75; hundred, $12.00.

New Dwarf Myrtifolia Fuchsias.

The two following varieties are hybrids of Fuchsia myrtifolia. Vick & Hill Co.'s High-Grade Aster Seed.

We have been engaged many years in growing fine Aster seed for the florists' trade, and growing cut Asters for the market, and we can say with pride that many of our customers write us that with our Aster seed they are always sure of getting the best to be had, and know that when their plants come into bloom they will not have a lot of flowers showing gorgeous yellow centers, but that our seed produces perfectly double flowers, and is second to none offered in this country.

ASTER. New Branching.

This class of Asters blooms considerably later than all other varieties, and at a season when there is the greatest scarcity of flowers, a feature which will be readily appreciated by those who have been caught short.

Give these new branching Asters a trial and you will ever after have them in your collection.

The seed we offer has been specially grown for our trade, having been saved from the largest and most perfect flowers only.
